The Greenhouse is an all-around rockin' show!

Three musicians in a garden greenhouse. What are they up to in there? Our ears and legs want to know, because sounds are sizzling inside! The greenhouse is moving and grooving to the sound of the electric guitar and the pulsating drum. The singer grabs the rhythm and makes gardening songs grow—songs about seeds, teeming life and hands in the earth, while the greenhouse fills with dazzling colours.

Rock concert, rave party, 360° show... *The Greenhouse* is all that and more! Perfect for dancing, letting off steam or relaxing. Your young shoots will have a blast! Who said vegetables were boring?

Explored topics Growing up and Growing plants, Practicing care, Gardening and Feeding ourselves, Connecting with nature, Parent-Child Relationship

Tools for teachers

Preparatory Meeting for going to the theater

20-minutes tailor-made preparatory workshop: for this activity, a facilitator will visit your groups and have the children dance and sing along to two of the songs that are part of the show. Kids will be introduced to the content and hybrid form of *The Greenhouse* by focusing on key words in the songs and having them slowly wake up to the musicality of the show.

Study Guide with pedagogical tips

The document explores the creative process of the show's creative team. It includes a few activities to enhance your group's theatrical experience. The study Guide is available online on the Petit Théâtre website.

Additional workshop after the show

Offered on request, at a cost of \$200 (before taxes), this 60-minute workshop will make you discover an artistic technique observed during the performance.

Available Grants

To have more information about grants, consult the *Programme La culture à l'école* of MEQ at www.education.gouv.qc.ca/enseignements/dossiers/culture-education/programme-la-culture-a-lecole

For schools included in the CSSRS : for more information, contact Nathalie Morel, Cultural Development Advisor, 819 822-5540 p. 20751 or morelN@cssrs.gouv.qc.ca
